B. NCP EXAM OVERVIEW

- Candidate Recommendation
 - A minimum of two years of experience in the financial services industry and a desire to learn more about check payments is recommended. Relevant experience could include check payment operations, treasury or cash management, check products and services, card services, legal services or compliance areas.
- Certification Requirements
 - Exam registration through ECCHO is required and each Registrant is then assigned a unique ID to be used when they set-up their exam appointment date and time.
 - After the Registrant schedules an Exam appointment, they must sit for the NCP exam and achieve a passing score to earn the NCP designation.
- Examinations
 - Each Exam is created from questions developed by the NCP Editorial Board, a team of subject matter experts drawn from the ECCHO membership and other industry resources with broad expertise and varied professional experience. The Editorial Board works under the guidance of the ECCHO and the Human Resources Research Organization (HumRRO) to build a sound, valid and fair certification process following professional and regulatory guidelines.
 - HumRRO is an independent, nonprofit organization with a long history of collaborating with the government, commercial businesses, and nonprofit organizations to provide solutions to a variety of challenges across various disciplines.
 - HumRRO has expertise in all aspects of the credentialing field, bringing to the development of the NCP Program more than 60 years of experience delivering hundreds of projects in job analysis and professional assessment.
 - ECCHO, a business line of The Clearing House, is a membership group with nearly 3,000 financial institution members. ECCHO provides leadership in the check payments industry and provides:
 - operating rules for private sector image exchange between member financial institutions.
 - a forum for members to discuss and assist in the Rules development process via a bottom-up methodology that enables broad participation from depository institutions of all sizes.
 - education and subject matter expertise to members and the general banking industry on a broad range of topics related to check payments and the regulatory environment.
 - assistance to members and the industry with operations and compliance issues and provides a discussion platform that can lead to error resolution between members.
 - advocacy for the check payments industry as ECCHO seeks to create the best environment for check payments by providing a forum for industry thinking on issues that affect check payments.

- Tests are administered by Pearson VUE at their authorized testing center locations. See section “C. Exam Administration” in this manual for details.
 - The Exam provides candidates the opportunity to demonstrate their expertise across the four (4) primary knowledge domains, or categories of check payments:
 - Rules, Laws and Regulations,
 - Fraud and Risk Mitigation,
 - Operations,
 - Products.
 - Detailed information on each of the four categories is included in the NCP Exam Blueprint. Download or view a copy here: http://www.eccho.org/ncpc_exam_blueprint
 - The Exam is a computer-based test that contains 120 multiple-choice questions with 100 of the Exam questions to be scored.
 - The twenty (20) questions on each exam that are not scored are considered “pilot questions” or new untested questions that reflect each of the four knowledge domains. Pilot questions are included in each exam administration to gather performance statistics for possible use on future Exams.
 - Note: These twenty questions are not identified during the Exam and are randomly presented within the Exam.
 - Currently each Registrant has three (3) hours from the start of the exam to complete the Exam of 120 multiple-choice questions.
 - Check-in at the testing center and access to and setup within the testing room are not part of this 3-hour time period.
 - The mix of questions included on each exam is based on the weighting associated with the four categories of knowledge covered by the exam:
 - Rules and Regulations – 34% of the exam.
 - Fraud, Risk and Risk Mitigation – 25% of the exam.
 - Check Operations – 33% of the exam.
 - Check Products – 8% of the exam.
 - Each multiple-choice question scored is worth one point.
 - Registrants are not penalized for wrong answers, so it is to the Registrant’s advantage to answer every question, even if it is a guess.
 - Individual demographic questions will be asked as part of the Exam with responses summarized to aid in the evaluation of each year’s exam candidate population.
